

The background of the entire page is a vibrant, abstract macro photograph. It features a mix of deep magenta, fuchsia, and dark purple hues. There are organic, flowing shapes that resemble liquid or biological structures. Numerous small, dark, circular specks are scattered throughout, giving it a textured, almost microscopic appearance. The lighting is dramatic, with bright highlights and deep shadows.

ABSTRACT ORGANIC MACRO ART

Abstract Organic Macro Art (AOMA) was developed by photographer and author **Andreas Peters** from Hamburg, Germany. After many years in the IT business he now devotes himself exclusively to his art. "I'm painting with my camera" is what Andreas says about his work.

Through the blend of organic materials and light, highly colorful and detailed worlds emerge on a macro level. No digital effects or artificial intelligence are applied to the finished photos. The intense, powerful and very lively appearance of the images invites the viewer to discover and dream.

Exhibitions
