

The background of the cover is a complex, abstract macro photograph. It features a dense field of small, circular, translucent structures, possibly cells or microorganisms, in various shades of green, yellow, and orange. These structures are set against a dark, almost black, background. The overall effect is one of organic complexity and depth.

ABSTRACT ORGANIC MACRO ART

Artist Andreas Peters from Hamburg, Germany developed Abstract Organic Macro Art (AOMA). **“I’m painting with my camera”** is what photographer Andreas says about his work. Through the blend of organic materials and light, highly colorful and detailed worlds emerge on a macro level. **No digital effects or artificial intelligence are applied to the finished photos.** The intense, powerful and very lively appearance of the images invites the viewer to travel, discover and dream.
